

THE DENTAL IMPLANT CLINIC
centre of excellence

Implant Overdentures Training

Thursday 23rd April
Bath

Two implants can transform a patient's eating ability...

We have noticed that one of the most life transforming services that we can offer our patients is to secure their lower denture with two implants.

Simple attachments...

The attachments to the patient's denture is extremely strong, cheap and easy to service.

We do the surgery, you make the overdentures...

We would like to work with you to offer your patients this treatment.

We will...

- Provide you with the training on the design and construction of overdentures
- Provide you with the technical support
- Provide you with the marketing know how to give to your edentulous patients
- Perform the surgical planning
- Place the implants
- Give guidance on fees

You will...

- Construct the definitive overdentures
- Provide the attachments inside the dentures

Course Fee...

£65 payable to The Dental Implant Clinic (Courses)

Only ten places available...

If you would like to join the training and marketing programme for overdentures then please contact:

MSc in Dental Implantology

Implant Overdentures Training

Thursday 23rd April
Bath

Aims

The aim of the seminar is to explain implant retained overdentures in detail and to give the course participants the knowledge of the prosthetic aspects of implant retained overdentures.

Objectives

At the end of this course the participants will understand how to construct implant retained overdentures. They will have a practical knowledge of the components and technical considerations. Delegates will also gain a knowledge of how to market the advantages of implant retained overdentures to their patients.

Programme

12.30pm	LUNCH
1.15pm	Implant overdentures general concepts of loading
1.30pm	A comparison of implant retained overdentures and fixed implant bridge work
2.00pm	Implant overdentures prosthetic components (hands-on)
2.30pm	Step-by-step guide on how to construct implant overdentures
3.00pm	Coffee and biscuits
3.15pm	Marketing and pricing
3.45pm	Design features from a technician's point of view
4.00pm	Live patient demonstration
4.30pm	Questions
5.00pm	Close
